

**GOVERNMENT OF INDIA
MINISTRY OF HOME AFFAIRS**

**LOK SABHA
STARRED QUESTION NO. *58**

TO BE ANSWERED ON THE 3RD FEBRUARY, 2026/ MAGHA 14, 1947 (SAKA)

NAXAL FREE INDIA

**†*58. SHRI RAMESH AWASTHI:
SMT. KAMALJEET SEHRAWAT:**

Will the Minister of HOME AFFAIRS be pleased to state:

(a) whether improved inter-State coordination and periodic leadership-level reviews on time to time basis have accelerated progress towards achieving the goal of a Naxal-free India by 31 March, 2026;

(b) if so, the details thereof;

(c) whether the Government has any data on Left Wing Extremism (LWE) affected districts and shortfalls in police station coverage and if so, the details thereof up to December, 2025, State and year-wise including States of Madhya Pradesh and Chhattisgarh;

(d) whether the Government has the details on the surrender, arrest and successful rehabilitation of former LWE cadres, particularly in the said States; and

(e) if so, the details thereof up to December, 2025, State and year-wise?

ANSWER

**MINISTER OF STATE IN THE MINISTRY OF HOME AFFAIRS
(SHRI NITYANAND RAI)**

(a) to (e): A statement is laid on the Table of the House.

STATEMENT REFERRED TO IN REPLY TO LOK SABHA STARRED QUESTION
No. *58 FOR 03.02.2026

As per Seventh Schedule of the Constitution of India, subjects of Police and Public Order are with the State Governments. However, the Government of India (GoI) has been supplementing the efforts of States affected by Left Wing Extremism (LWE). To address the LWE menace holistically, a “National Policy and Action Plan to address LWE” was approved in 2015. It envisages a multi-pronged strategy involving security related measures, development interventions, ensuring rights and entitlements of local communities etc.

(i) On security front, the GoI assists the LWE affected State Government by providing Central Armed Police Forces and raising of India Reserve Battalions, helicopter support, strengthening of security camp infrastructure, training, funds for modernization of State police forces, equipment & arms, sharing of intelligence, construction of Fortified Police Stations etc.

- For capacity building of states since 2014-15, Rs. 3681.73 crore have been released to LWE affected states on operational expenditure and training needs of Security Forces, rehabilitation of surrendered LWE cadre, ex-gratia to families of martyred security force personnel/civilians killed in LWE violence etc. under Security Related Expenditure (SRE) scheme.**

- **Gol and State Governments have formulated comprehensive surrender-cum-rehabilitation policies. The Gol also supports the States in the endeavor through ‘Surrender-cum-Rehabilitation’ Policy as part of Security Related Expenditure (SRE) Scheme. The Gol reimburses the expenditure incurred by the LWE affected States on rehabilitation of surrenderees under the SRE Scheme. The rehabilitation package inter-alia, includes an immediate grant of Rs. 5 lakhs for higher ranked LWE cadres and Rs 2.5 lakhs for other LWE cadres. In addition, incentives for surrender of weapons/ammunition are also provided under the Scheme. In addition, provision also exists for imparting training in trade/vocation of their liking with monthly stipend of Rs. 10,000/- for three years. The affected States have further revised their Surrender cum Rehabilitation policies to make them lucrative and contemporary.**
- **The efforts of the States for equipping and modernizing their police forces have been supplemented under the scheme of “Modernization of Police Forces”. Under the scheme, central assistance is provided to the State Governments for weapons, equipment for Information Technology, Communication, Training, construction of Police stations, mobility and construction of police housing and other police infrastructure etc. Under its sub scheme i.e. Special Infrastructure Scheme (SIS), works of**

Rs. 1761 crore have been sanctioned to LWE affected states for strengthening of State's Special Forces, State Intelligence Branches (SIBs), District Police and construction of Fortified Police Stations (FPS). The Gol's focus on security infrastructure has been pivotal. So far 656 fortified police stations have been built.

- Under Assistance to Central Agencies for LWE Management (ACALWEMS) Scheme, assistance is provided for basic structure of camps and for provisioning of helicopters for counter LWE operations. Rs.1224.59 Crores has been provided to Central Agencies through this scheme since 2014-15.**
- There has been a special focus on the financial choking of LWEs and unearthing of the nexus between CPI (Maoists) and its financial supporters. For effective action towards choking of funds and other resources to LWE, coordinated actions are being taken by State Police in cooperation with Central agencies by various means.**

(ii) On development front, apart from the flagship schemes of Government of India (Gol), several LWE affected areas specific initiatives have been taken with special thrust on expansion of road network, improving telecommunication connectivity, education, skill development and financial inclusion. A few of these are enumerated below:

- **For expansion of road network, 15,016 km have been constructed under 02 LWE specific schemes namely Road Requirement Plan (RRP) and Road Connectivity Project for LWE Affected Areas (RCPLWEA).**
- **For improving telecom connectivity in LWE affected areas 9,233 towers have been commissioned.**
- **For Skill Development, 46 Industrial Training Institute (ITI) and 49 Skill Development Centres (SDC) have been opened.**
- **For quality education in tribal areas 179 Eklavya Model Residential Schools (EMRS) have been made functional.**
- **For financial inclusion, Department of Posts has opened 6,025 Post Offices with banking services in LWE affected districts. 1804 Bank Branches and 1321 ATMs have been opened in Most LWE affected districts.**
- **For further impetus to development, funds are provided for filling critical gaps in public infrastructure in Most LWE affected Districts under Special Central Assistance (SCA) scheme. Till now, Rs. 3,953.67 crore have been released since the inception of Scheme in 2017.**

(iii) The resolute implementation of the 'National Policy and Action Plan 2015' has resulted in consistent decline in violence and constriction of geographical spread. LWE which has been a serious challenge to the internal security of the nation has been significantly curbed in the recent times and has been constricted to only a few pockets. The number of LWE-affected districts reduced from 126 in 2018 to only 08 in December-2025 with only 3 districts now remaining Most LWE Affected.

The LWE perpetrated violence incidents have come down from high of 1936 in year 2010 by 88% to 234 in 2025. Resultant deaths of Civilians & Security Forces have also come down from high of 1005 in year 2010 by 90% to 100 in year 2025.

In 2025, security forces have neutralized 364 Naxals, arrested 1022 and facilitated 2337 surrenders. State-wise and year-wise details of LWEs arrested and surrendered are given at Annexure I.

The number of Police Stations reporting LWE related violence has significantly reduced from 465 Police Stations in 2010 to 119 Police Stations in the year 2025. State-wise and year-wise number of districts and police stations reporting LWE related violence are given at Annexure II.

(iv) Govt is committed for complete eradication of LWE from our country as well as holistic development of areas getting freed from Left Wing Extremism.

Achievements in Counter LWE Operations

Year	LWEs Arrested	LWEs Surrendered
2019	1276	440

**GOVERNMENT OF INDIA
MINISTRY OF HOME AFFAIRS**

**LOK SABHA
STARRED QUESTION NO. *143**

TO BE ANSWERED ON THE 10TH FEBRUARY, 2026/ MAGHA 21, 1947 (SAKA)

FIRE SAFETY PROVISIONS UNDER NATIONAL BUILDING CODE

***143. SHRI LAVU SRI KRISHNA DEVARAYALU:
SHRI PUTTA MAHESH KUMAR:**

Will the Minister of HOME AFFAIRS be pleased to state:

- (a) whether any review or assessment has been conducted on the effectiveness of fire safety provisions under Part 4 (Fire & Life Safety) of the National Building Code (NBC) 2016, particularly in hospitals, commercial complexes, industrial units, and residential buildings;**
- (b) if so, the details and findings thereof during the last five years, State and year-wise;**
- (c) the total number and causes of fire-related incidents and fatalities reported including smoke inhalation, electrical faults, flammable materials and negligence during the last five years, State-wise;**
- (d) the number of buildings audited for fire safety annually and the proportion found non-compliant or partially compliant during the said period;**
- (e) whether the Government proposes to incorporate provisions for smoke management systems, periodic audits, electrical fire prevention and digital compliance tracking in future revisions of the NBC;**
- (f) whether NBC standards have been benchmarked with international fire safety norms and gaps identified; and**
- (g) the steps taken to strengthen accountability, enforcement, inspections and penalties by States and local bodies?**

ANSWER

**MINISTER OF STATE IN THE MINISTRY OF HOME AFFAIRS
(SHRI NITYANAND RAI)**

(a) to (g): A statement is laid on the Table of the House.

STATEMENT IN REPLY TO PARTS (a) TO (g) OF THE STARRED QUESTION NO. 143* FOR ANSWER IN LOK SABHA ON 10.02.2026

Fire Services is a State subject and has been included as a Municipal function in the XII Schedule of the Constitution of India under Article 243 (W). It is the primary responsibility of the State Governments to take necessary measures for strengthening and equipping Fire Services and to avert the fire incidences in the area of their jurisdiction.

Role of Central Government is to advise and support in policy matters to State Governments for undertaking prevention and fire safety measures. The Central Government does not maintain data related to fire accidents / incidents in the States and the buildings audited centrally. However, as per the data reported by the States/Union Territories to National Crime Record Bureau (NCRB) during 2023, a total of 7,054 cases of fire accidents were reported in the country which rendered 6,891 deaths and injuries to 284 persons.

Bureau of Indian Standards had published National Building Code of India (NBC), 2016. It covers the detailed guidelines for construction, maintenance and fire safety of the structures. The current version of the NBC, 2016 includes the aspects regarding smoke management, periodic audits, electrical fire prevention, building management system, sensors for

firefighting and fire prevention, etc. The international best practices in building construction including fire safety were also considered in revising the respective chapter of NBC, 2016.

The Ministry of Housing and Urban Affairs have framed Model Building Bye Laws 2016, for guiding the States / UTs for revising their respective Building Bye Laws. It also contains a Chapter on fire protection and fire safety requirements which prescribes the norms and standards for fire protection. Its effective enforcement is in the domain of the States / UTs.

National Fire Service College (NFSC), Nagpur conducts regular training in advanced techniques of firefighting and rescue etc. for Sub Fire Officers, Station Officers and Divisional Officers. The College also conducts a four-year B.Tech. degree program in science of Fire Engineering which is recognized by AICTE and affiliated to R.T.M. Nagpur University. NFSC, Nagpur has trained 4049 Fire Services Officers and produced 329 B. Tech Engineers during last five years.

Recognizing the need for expansion and modernization of fire services in the States, Fifteenth Finance Commission recommended a provision of Rs. 5000 crore for strengthening the fire services at a state level. The Central Government has launched a “Scheme for Expansion and Modernization of Fire

Services in the States” on 04.07.2023 from the Preparedness and Capacity Building Funding Window under the National Disaster Response Fund for strengthening fire services in the States with a total Central outlay of Rs. 5,000 Crore.

The measures included in the scheme provides setting up of new fire stations, strengthening of State Training Centres and capacity building, provisions for modern fire-fighting equipment, strengthening of State Headquarters and Urban Fire Stations, technological upgradation and installation and augmentation of online system etc.

Enforcement of fire safety regulations, inspections, accountability mechanisms and penalties are also governed by the respective State Fire Service Acts/Rules and local statutory provisions.

**GOVERNMENT OF INDIA
MINISTRY OF HOUSING AND URBAN AFFAIRS
LOK SABHA**

**STARRED QUESTION NO. 292
TO BE ANSWERED ON MARCH 12, 2026**

SHORTAGE OF PARKING INFRASTRUCTURE

NO. 292. SHRI VIJAYAKUMAR ALIAS VIJAY VASANTH:

Will the Minister of HOUSING AND URBAN AFFAIRS be pleased to state:

- (a) whether the Government has assessed the growing shortage of parking infrastructure due to rapid increase in vehicles across metro cities and major urban centres, if so, the details thereof;**
- (b) whether a nationwide policy framework exists for development of multi-storey or automated parking facilities in metropolitan cities, if so, the details thereof along with the cities covered under such initiatives;**
- (c) the number of multi-level parking projects constructed, under construction and proposed to be constructed across the country during each of the last five years and the current year, city-wise;**
- (d) whether the Government has issued uniform guidelines to State Governments and Urban Local Bodies for scientific urban parking management, if so, the details thereof along with the status of their implementation; and**
- (e) whether multi-storey parking facilities are being integrated with metro rail stations, bus terminals and commercial hubs to reduce roadside congestion, if so, the details thereof?**

**ANSWER
THE MINISTER OF HOUSING AND URBAN AFFAIRS
(SHRI MANOHAR LAL)**

(a) to (e): A Statement is laid in the Table of the House.

STATEMENT REFERRED TO IN REPLY TO PART (a) TO (e) OF STARRED QUESTION NO. *292 DUE FOR ANSWER IN THE LOK SABHA ON MARCH 12, 2026 REGARDING “SHORTAGE OF PARKING INFRASTRUCTURE”

(a) to (e): As per 12th Schedule of the Constitution of India, urban planning including parking infrastructure and parking management is the function of Urban Local Bodies (ULBs)/ Urban Development Authorities. Government of India supplements the efforts of the States through schematic interventions/ advisories. Parking demand varies with local factors such as economic profile, type of housing, and commercial activity; therefore, uniform national norms are not mandated and States/UTs prescribe parking requirements in their respective building bye-laws based on local conditions. The Government of India has, however, issued policy frameworks, advisories and model guidelines from time to time for improving urban transport planning, parking management and transit integration. These include the Indian Roads Congress (IRC) - Guidelines for Parking facilities in urban areas, 2015; National Urban Transport Policy (NUTP), 2006; the Urban and Regional Development Plans Formulation and Implementation (URDPFI) Guidelines 2014; the Model Building Bye-Laws (MBBL), 2016; the Metro Rail Policy, 2017; and the National Transit Oriented Development (TOD) Policy, 2017. These documents provide broad guidance on integrated land use and transport planning, scientific parking management, parking norms, and transit-oriented development.

The IRC-Guidelines for Parking facilities in urban areas, 2015 provides for Parking Policy Objectives and Guiding Principles, Parking Strategies, types of Parking, Parking Norms and Standards, space requirements and design layouts for different vehicle types, including cars, buses, trucks, three-wheelers and bicycles.

NUTP 2006 provides for making multi-level parking complexes a mandatory requirement in city centres that have several high-rise commercial complexes.

The MBBL, 2016 Chapter 3-Development Codes, Section 3.3, provides for parking standards and also permits stacked / multi-level / automated parking in appropriate developments.

The URDPFI Guidelines, 2014 Chapter 8 – Infrastructure Planning, provides planning norms and standards for urban infrastructure including parking requirements, norms for off-street parking facilities, and planning of multi-level parking structures in urban areas and commercial districts. The guidelines also emphasize integrating parking planning with land-use planning and urban transport systems.

The Smart Cities Mission (SCM) was launched on 25 June 2015. As of 19th December 2025, across the 100 selected cities, a total 8,064 projects amounting to ₹1,64,811 Cr were sanctioned. Under SCM as on 01.03.2026,

a total of 74 projects worth ₹2,481 Crore relating to “Multi-level Parking” were taken up in 42 cities, out of which 63 projects worth ₹2,140 Crore have been completed and remaining 11 projects worth ₹341 Crore are at implementation stage. The city-wise details of projects undertaken in SCM are enclosed as Annexure-I.

Atal Mission for Rejuvenation and Urban Transformation (AMRUT) was launched on 25 June 2015 in selected 500 cities (485 cities including 15 merged cities) and towns across the country. Non-motorised Urban Transport is one of the thrust areas of the AMRUT Mission that includes provision of pedestrian, non-motorized and public transport facilities, cycle tracks, parking spaces etc. Under this sector, the purpose is to bring down traffic congestion & to reduce pollution by switching to public transport or constructing facilities for non-motorized transport (e.g. walking and cycling). Against the total plan size of ₹77,640 crore, ₹1,436 crore (2%) has been allocated under this sector. 348 projects worth ₹1,022.27 crore have been grounded, of which works worth ₹986.06 crore have been physically completed. Out of these, 38 parking projects worth ₹282.99 crore have been grounded, of which works worth ₹256.57 crore have been physically completed. Details are enclosed as Annexure-II.

Under the Scheme for Special Assistance to States for Capital Investment (SSASCI) 2024-25 – Urban Planning Reforms by Ministry of Finance, so far, 18 public parking projects in 8 States/UTs have been incentivized. Details are enclosed as Annexure-III.

City-wise data on the number of multi-level parking projects constructed, under construction and proposed during the last five years is not maintained centrally by the Ministry of Housing and Urban Affairs. Such projects are implemented by the respective State Governments / UT Administrations / ULBs / development authorities based on their local necessities.

Further, the Metro Rail Policy, 2017 and the National TOD Policy, 2017 emphasize multi-modal integration and last-mile connectivity, including planning of park-and-ride facilities and parking infrastructure near metro stations, bus terminals and major activity centres. Accordingly, integration of parking facilities with metro rail stations, bus terminals and commercial hubs is undertaken by the concerned State Governments / UT Administrations / metro rail agencies / ULBs subject to feasibility and land availability.

ANNEXURE-I REFERRED TO IN REPLY TO PART (a) TO (e) OF STARRED QUESTION NO. *292 DUE FOR ANSWER IN THE LOK SABHA ON MARCH 12, 2026 REGARDING “SHORTAGE OF PARKING INFRASTRUCTURE”

MINISTRY OF HOUSING AND URBAN AFFAIRS
LOK SABHA
STARRED QUESTION NO. 299
TO BE ANSWERED ON MARCH 12, 2026**

CONTAMINATED DRINKING WATER SUPPLY

NO. 299. SHRI MANISH TEWARI:

Will the Minister of HOUSING AND URBAN AFFAIRS be pleased to state:

- (a) whether the Government is aware of recent reports regarding supply of contaminated drinking water in certain areas of Chandigarh, leading to a number of residents falling sick;**
- (b) if so, the details of the areas affected, the number of complaints received and the findings of water quality tests conducted in this regard;**
- (c) whether any lapses in water supply infrastructure, pipeline maintenance or monitoring systems have been identified and if so, the details thereof;**
- (d) the immediate and long-term measures taken or proposed by the Government to ensure safe and potable drinking water, including regular testing and infrastructure upgradation; and**
- (e) whether any accountability has been fixed on the officials or agencies responsible for the lapses and if so, the details thereof?**

**ANSWER
THE MINISTER OF HOUSING AND URBAN AFFAIRS
(SHRI MANOHAR LAL)**

(a) to (e): A Statement is laid in the Table of the House.

STATEMENT REFERRED TO IN REPLY TO PART (a) TO (e) OF STARRED QUESTION NO. 299 DUE FOR ANSWER IN THE LOK SABHA ON 12 MARCH, 2026 REGARDING “CONTAMINATED DRINKING WATER SUPPLY”

(a) to (e): Water is a State subject. The State Governments are responsible for monitoring, enforcement, and corrective action for drinking water safety. The operation, maintenance and replacement of old deteriorated pipelines is the responsibility of Urban Local Bodies (ULBs)/ parastatals. Government of India supplements the efforts of the States through schematic interventions/ advisories. It provides financial and technical support to the States through various schemes/ Missions such as Atal Mission for Rejuvenation and Urban Transformation (AMRUT) and AMRUT 2.0 for approved infrastructure projects.

The Administration of Union Territory of Chandigarh has informed that complaints were received regarding supply of water contamination cases in the areas of Mauli Jagran, Dariya and Hallo Majra in Chandigarh. However, in majority of the cases, presence of muddy water has been noticed which is linked to ongoing repair work of the supply lines. Besides, there have been cases where residents have utilized their water pumps during non-supply hours which are directly connected to the distribution lines, thus, generating internal pressure at the pipe joints and resulting in the mixing of mud with the water.

The UT Administration has taken immediate measures and water samples were collected randomly and got tested through National Accreditation Board of Testing and Calibration Laboratories (NABL) accredited Lab. 1995 water samples were tested during the last 3 months and the tests of collected samples during the period have been found satisfactory. Flushing of water supply lines was done to ensure zero contamination in the pipelines and proper chlorination was ensured in the potable water at user end. The UT Administration has also informed that in Chandigarh, water supply system is old one, which results in leakages in pipes sometimes. As and when such incidents are noticed, immediate repair works are carried out. Connectivity of all the left-out areas such as Mauli Jagran and Dariya which are dependent on ground water with canal water, is part of long term strategy of the UT Administration along with phase-wise replacement of identified old/damaged distribution pipelines with Ductile Iron (DI) pipelines.

Under Atal Mission for Rejuvenation and Urban Transformation 2.0 (AMRUT 2.0), the Chandigarh Administration has taken up 07 projects with total cost of ₹166.39 crore, which include 2 water supply projects worth ₹43.77 crore and 05 sewer/septage management projects worth ₹122.62 crore. The approved projects cover 10.50 KM new water network and 239.69 KM of Sewer Network (167 KM new and replacement of 72.69 KM). So far, In Chandigarh, more than 1.76 lakh water tap connections in the urban areas and 2.36 lakh sewer connections (including households covered through FSSM) have been provided so far under AMRUT/ AMRUT 2.0 and in convergence. 20 KM of water pipeline network and 30.13 KM of sewer network has been laid/ replaced.

Drinking water contamination in urban areas is a multi-factor issue and is generally attributable to distribution system vulnerabilities and interface issues with sewerage and sanitation infrastructure. Drinking water supplied in urban areas is required to conform to BIS IS 10500 standards; however, deterioration in quality may occur due to infrastructure-related, operational, environmental and maintenance factors across transmission, storage and distribution systems. The key reasons for contamination in drinking water supply includes leakages, pipe bursts and defective joints, cross-connections with Sewerage and Drainage Systems, ageing infrastructure and corrosion, intermittent water supply and negative pressure, stagnation and prolonged retention of water, poor maintenance of storage and associated infrastructure, inadequate sewerage and septage management, etc.

The Ministry of Housing Affairs (MoHUA) has published Manual on Water Supply and Treatment Systems (Drink from Tap) in March 2024 for reference by the States/ ULBs for designing, implementation, drinking water quality and monitoring of the water supply projects. (<https://mohua.gov.in/publication/manual-on-watersupplyandtreatment-systems---drink-from-tap---march-2024.php>).

MoHUA has issued an advisory in January, 2026 to all the States to carry out comprehensive assessments of vulnerable areas & ageing infrastructure and to identify the crossing of sewer lines in close proximity to water supply lines and to conduct digital mapping of the existing water and sewer network using geo-spatial database created under AMRUT/AMRUT 2.0 in order to prevent health hazards.

MoHUA has also issued an advisory "Strengthening Water Quality Monitoring in Cities through Community Participation" under AMRUT 2.0 in November, 2024 to all the States to formulate a Water Quality Monitoring strategy at the State or City level and to strengthen the institutional capacity for citywide monitoring of drinking water quality in urban areas along with Digital Display Boards for water quality parameters for public information & awareness.

AMRUT/AMRUT 2.0 guidelines allows for replacement of legacy infrastructure, vulnerable crossings and pressure-managed systems to reduce contamination risks as per priority of State. Further, AMRUT 2.0 Mission promotes 24x7 water supply with quality assurance, Drink from Tap (DfT) quality water in selected District Metered Areas (DMAs)/wards, online water quality monitoring, sensors and Supervisory Control and Data Acquisition (SCADA), community participation, especially Women Self Help Groups (SHGs), in water quality testing.

Through AMRUT/ AMRUT 2.0 and in convergence with the States, 246 lakh water tap connections in the urban areas have been provided so far, 182 lakh sewer connections (including households covered through Fecal Sludge and Septage Management (FSSM)) have been provided through AMRUT/ AMRUT 2.0 and in convergence in AMRUT Cities. 93,457.51 km of water pipeline network has been laid/ replaced and 26,995.61 km of sewer network has been laid/ replaced.

Under AMRUT, 258 water supply schemes have smart monitoring systems such as SCADA system and 1,422 water supply projects under AMRUT 2.0 has provision for SCADA system. Mission advocates ease of getting connections to minimize illegal connections. Mission has provision of ₹3,000 per connection to enhance last mile connectivity. Mission advocated to use of smart elements, flow meters, pressure valves, etc. to strengthen maintenance systems, digital monitoring, energy efficiency, etc.

For improvement in service delivery, States have taken up DfT projects and States are encouraged to implement at least one DfT project in a DMA or ward within each AMRUT city. 407 projects with 1,153 DMAs benefitting 16.72 lakh Households have been approved in 348 ULBs under AMRUT 2.0.

**GOVERNMENT OF INDIA
MINISTRY OF ROAD TRANSPORT AND HIGHWAYS**

**LOK SABHA
STARRED QUESTION NO. 398
ANSWERED ON 19th March 2026**

CASHLESS SCHEME FOR ROAD ACCIDENT VICTIMS

***398. SHRI CHAVAN RAVINDRA VASANTRAO:
SHRI RAJKUMAR CHAHAR:**

Will the Minister of ROAD TRANSPORT AND HIGHWAYS

सड़क परिवहन और राजमार्ग मंत्री

be pleased to state:

(a) whether the "Cashless Treatment of Road Accident Victims" scheme notified in 2025 has yielded effective results in reducing fatalities during the "Golden Hour" on National Highways and if so, the details thereof, State/UT-wise and the timeline envisaged for nationwide rollout of the scheme;

(b) the number of black spots identified and rectified on National Highways during the last three years and the progress made in implementing mandatory road "star rating" in accordance with the standards of the International Road Assessment Programme (iRAP), State/UT-wise;

(c) the concrete initiatives undertaken to integrate Artificial Intelligence (AI) with FASTag 2.0 at National Highway toll plazas to enable barrier-free tolling and reduce congestion at entry points; and

(d) the present status and achievements of the above initiatives, State/UT-wise?

ANSWER

THE MINISTER OF ROAD TRANSPORT AND HIGHWAYS

(SHRI NITIN JAIRAM GADKARI)

(a) to (d) A statement is laid on the Table of the House

STATEMENT REFERRED TO IN REPLY TO PARTS (a) TO (d) OF THE LOK SABHA STARRED QUESTION NO. *398 FOR ANSWER ON 19.03.2026 ASKED BY SHRI CHAVAN RAVINDRA VASANTRAO AND SHRI RAJKUMAR CHAHAR REGARDING CASHLESS TREATMENT SCHEME FOR ROAD ACCIDENT VICTIMS.

(a) to (d) In accordance with the legal mandate under Section 162 of the Motor Vehicles Act (MV Act), 1988, “Prime Minister -Road Accident Victims’ Hospitalisation and Assured Treatment (PM-RAHAT) Scheme” has been notified and comprehensive guidelines detailing the process flow, roles and responsibilities of respective stakeholders, and the Standard Operating Procedures (SOPs) for its implementation have been issued. The scheme has been launched nation-wide on 13.02.2026 after onboarding States/UTs on the digital platform except the State of West Bengal. The necessary steps for implementation of the scheme are yet to be completed by State of West Bengal. As the scheme has been launched recently, it is too early to assess its efficacy in terms of reduction in fatalities during the “Golden Hour”.

The salient features of the scheme are as under:

- (i) Treatment cover upto ₹1.5 lakh per victim will be provided, subject to a maximum cap of 7 days from date of accident on any category of road. The treatment cover will be available to all those victims who are involved in road accidents caused by use of motor vehicles.**
- (ii) Every road accident victim shall be provided with stabilization treatment for upto 24 hours in non-life-threatening cases and upto 48 hours in life-threatening cases at designated hospitals, subject to police response.**
- (iii) This statutory scheme will take precedence over any other central / state level schemes.**
- (iv) The scheme has been successfully implemented through the amalgamation of two existing platforms –eDAR (Electronic Detailed Accident Report) used by police officials for reporting of accidents and TMS 2.0 (Transaction Management System) of National Health**

Authority (NHA) used by hospitals for treatment, claim submissions and processing of payments.

(v) The reimbursement to hospitals is being done through Motor Vehicle Accident Fund (MVAf) which is funded through contributions from General Insurance companies for cases where the offending motor vehicle is insured and through budgetary support for uninsured and hit & run cases.

Through integration with the 112 Emergency Response Support System (ERSS), the victim or Good Samaritan (RAH-VEER) can obtain necessary information regarding the nearest designated hospital, request an ambulance, or both, as per the situation's requirements. As soon as the victim is admitted, treatment process will have to be initiated based on the Health Benefit Packages developed by NHA. In parallel, while initiating the treatment, police authentication of the victim will have to be initiated in the TMS platform. The hospital would generate the treatment ID(s) on TMS and push it to the district police through eDAR. The time available with police for responding on eDAR shall be upto 24 hours, or 48 hours in life threatening situations as decided by the hospital administrator.

Rectification of black spots is a continuous process and temporary measures are taken on immediate basis. Out of total 16,542 blackspots identified on National Highways (NHs) in the country, short-term rectification has been completed on 14,138 black spots. Long-term rectification measures, as recommended by road safety audit reports, are implemented only at locations deemed necessary. Accordingly, long-term measures have been completed at 6,649 black spots, while 4,077 black spots have been assessed as not requiring such long-term interventions. The details are attached as Annexure-A.

All National Highway (NH) works are carried out as per standards, guidelines, manual, code of practice of Indian Roads Congress as well as specifications for Road and Bridge Works. Necessary road safety measures are taken during design, construction, operation and maintenance stages. Further, Guidelines have been issued for regular safety audit of all NHs at design, construction, pre-opening stage of NH projects as well as on existing NHs for ensuring road safety.

In the efforts to enhance toll operations and enable seamless movement of vehicles, the Government has decided to implement Multi-Lane Free Flow (MLFF) Electronic Toll Collection system, which facilitates barrier-free tolling using integrated technologies including Automatic Number Plate Recognition (ANPR) with Artificial Intelligence analytics and high performance Radio Frequency Identification (RFID) -based Electronic Toll Collection (FASTag), where the user fee shall be charged from the vehicle users without halting at the toll plaza for the purpose.

The details of fee plazas for which Request for Proposal (RFP) for implementation of MLFF has been finalized for implementation of barrier free tolling is attached as Annexure-B.

Details of fee plazas for which Request for Proposal (RFP) has been invited for implementation of barrier free tolling is attached as Annexure-C.

Annexure - A

**GOVERNMENT OF INDIA
MINISTRY OF HEALTH AND FAMILY WELFARE
DEPARTMENT OF HEALTH AND FAMILY WELFARE**

**LOK SABHA
STARRED QUESTION NO. 483*
TO BE ANSWERED ON THE 27TH MARCH, 2026**

SHORTAGE OF PARAMEDICAL STAFF IN PHCS AND CHCS

***483. SHRI RAJABHAU PARAG PRAKASH WAJE:**

Will the **MINISTER OF HEALTH AND FAMILY WELFARE** be pleased to state:

- (a) whether the Government has taken note that there is an acute shortage of doctors, specialists, nurses and paramedical staff in Primary Health Centres (PHCs), Community Health Centres (CHCs) and Rural and District Hospitals in Nashik Lok Sabha Constituency in Maharashtra, particularly in tribal and remote areas such as Surgana, Trimbakeshwar, Peth and Igatpuri, if so, the details thereof;
- (b) whether adequate facilities for maternal and child health, immunization, malnutrition control and prevention of water-borne and vector-borne diseases like dengue and malaria are being ensured in these areas, if so, the details thereof;
- (c) whether Mobile Medical Units, Telemedicine services and Ambulance networks have been strengthened in tribal and hilly regions, if so, the details thereof; and
- (d) whether the Government proposes any special package to upgrade health infrastructure, establish Trauma centres and fill long-pending vacancies in Nashik district and if so, the details thereof?

**ANSWER
THE MINISTER OF HEALTH AND FAMILY WELFARE
(SHRI JAGAT PRAKASH NADDA)**

(a) to (d) A Statement is laid on the Table of the House.

**STATEMENT REFERRED TO IN REPLY TO LOK SABHA
STARRED QUESTION NO. 483* FOR 27TH MARCH, 2026**

(a) to (d) 'Public Health' & 'Hospitals' are State subjects. The primary responsibility for the availability of doctors, specialists, nurses and paramedical staff in various public health facilities in the country lies with the respective State/UT Governments.

The details regarding doctors, nurses and specialists and their vacancies in Government hospitals across the country including Maharashtra, at the healthcare facilities across the country can be accessed at the following link of Health Dynamics of India (HDI) 2022-23:

https://mohfw.gov.in/sites/default/files/Health%20Dynamics%20of%20India%20%28Infrastructure%20%26%20Human%20Resources%29%202022-23_RE%20%281%29.pdf

The National Health Mission (NHM) provides support for improvement in health infrastructure, human resources in health facilities, availability and accessibility to quality healthcare across the country including Maharashtra. Technical and financial support is provided to the States/UTs to strengthen the public healthcare system, based on the proposals received in the form of Programme Implementation Plans (PIPs) under NHM. Approval is accorded to the proposals in the form of Record of Proceedings (RoPs) as per norms & available resources.

Through the Reproductive Maternal Newborn Child Adolescent Health Plus Nutrition (RMNCAH+N) strategy, Government is making sustained efforts to improve maternal and child health and reduce malnutrition and anaemia in the country including tribal and remote areas. Immunization coverage has been strengthened via the digital U-WIN portal, ensuring real-time tracking of every child and pregnant woman. National Vector Borne Disease Control programme (NVBDGP) is being implemented for prevention and control of six Vector Borne Diseases including Malaria and Dengue in all States/UTs wherever these diseases are endemic.

Mobile Medical Units (MMUs) are supported under NHM to provide outreach services in remote villages with difficult terrain which are underserved and inaccessible. As per NHM-MIS report, a total of 1453 MMUs have been deployed across the country including Maharashtra.

Teleconsultation services are available at all operational Ayushman Arogya Mandirs (AAMs) across the country including Maharashtra, which enables people to access the specialist services closer to their homes addressing concerns of physical accessibility, shortage of service providers and to facilitate continuum of care. The total teleconsultations conducted at AAMs across the country are 44.08 crore, as on 28.02.2026.

Under National Ambulance Service, 3,268 Advanced Life Support (ALS), 15,554 Basic Life Support (BLS), 3,839 Patient Transport Vehicle (PTV), 19 Boat Ambulances, 81 Bike Emergency Response Vehicles and 5,773 other empanelled vehicles are supported under NHM for transportation of patients, particularly pregnant women and sick infants from home to public health facilities and back across the country including Maharashtra.

The Pradhan Mantri Ayushman Bharat Health Infrastructure Mission (PM-ABHIM) with an outlay of Rs.64,180 crore aims to provide support for infrastructure development for Sub-Health Centres (SHCs), Urban AAMs, Block Public Health Units (BPHUs), Integrated District Public Health Laboratories (IPHL) and Critical Care Hospital Blocks (CCBs). Total amount of Rs. 1086.44 crore has been approved under PM-ABHIM for the State of Maharashtra for FY 2021-22 to FY 2025-26.

The Fifteenth Finance Commission (FC-XV) has recommended grants through Local Governments for specific components of the health sectors. Total amount of Rs.7063.60 crore has been approved under FC-XV health grant for Maharashtra for the period from FY 2021-22 to FY 2025-26.

Under the "National Programme for Prevention & Management of Trauma and Burn Injuries" (NPPMT&BI), 196 Trauma Care Facilities (TCFs) including 6 TCFs in Maharashtra were sanctioned in Government Hospitals/ Medical Colleges across the country.

Incentives and honorarium are provided to medical professionals to improve service delivery in rural and remote areas, including Maharashtra. Under NHM, measures such as Hard Area Allowance for specialist doctors, flexibility to States to offer negotiable salaries including "You Quote We Pay", non-monetary incentives like preferential admission in postgraduate courses and multi-skilling of doctors through training in Comprehensive Emergency Obstetric and Newborn Care (CEmONC) and Life Saving Anaesthesia Skills (LSAS) are supported to address the shortage of specialists in such areas.

**GOVERNMENT OF INDIA
MINISTRY OF ROAD TRANSPORT AND HIGHWAYS**

**LOK SABHA
STARRED QUESTION NO - 555
ANSWERED ON- 02nd APRIL, 2026**

MULTIPLE LAYERS OF TAXATION ON VEHICLES

***555 SHRI VIJAY KUMAR HANSDAK :**

Will the Minister of ROAD TRANSPORT AND HIGHWAYS

सड़क परिवहन और राजमार्ग मंत्री

be pleased to state:

- (a) whether the Government has any proposal/plan to reduce the multiple tax burden on vehicles such as Road Tax, Fuel Tax and Toll Tax;**
- (b) if so, the details thereof along with the steps taken in this regard and if not, the reasons therefor; and**
- (c) whether the Government intends to waive off Toll Tax if the waiting time at toll plazas exceeds five minutes and if so, the details thereof?**

ANSWER

**THE MINISTER OF ROAD TRANSPORT AND HIGHWAYS
(SHRI NITIN JAIRAM GADKARI)**

(a) to (c) A statement is laid on the Table of the House.

STATEMENT REFERRED TO IN REPLY TO PARTS (a) TO (c) OF THE LOK SABHA STARRED QUESTION NO. *555 FOR ANSWER ON 02nd April, 2026 ASKED BY SHRI VIJAY KUMAR HANSDAK REGARDING MULTIPLE LAYERS OF TAXATION ON VEHICLES.

(a) to (c) The Constitution of India empowers the States/Union Territories to make law for levy of motor vehicle tax.

The excise duty or cess on fuel is imposed by the Central Government and utilized for infrastructure development and maintenance related activities, including for railways, rural roads, National Highways (NH) etc. The Government undertakes fiscal interventions in the petroleum sector, as and when required, to protect consumers from volatility in international crude oil prices. Some of them are as follows:

- In November 2021 and May 2022, the Central Government reduced Central Excise Duty by a total of Rs. 13/litre on petrol and Rs. 16/litre on diesel in two tranches, which was fully passed on to consumers.**
- In March 2024, Oil Marketing Companies (OMCs) reduced retail prices of petrol and diesel by Rs. 2 per litre each.**
- In April 2025, the increase of Rs. 2 per litre in excise duty on petrol and diesel was not passed on to consumers.**
- Recently, in view of rising international crude oil prices due to the Middle East crisis, the Government has reduced excise duty by Rs. 10 per litre each on petrol and diesel to absorb part of the burden on consumers**

The user fee i.e. 'toll' is payable by motor vehicles for use of a section of a National Highway and is levied under the provisions of section 7 of the National Highways Act, 1956 (48 of 1956) and rules made thereunder. The user fee collected at fee plazas on National Highways is utilized for rendering services or benefits on National Highways in accordance with the provision of National Highways Fee (Determination of Rates and Collection) Rules, 2008. The revenue collected by the Central Government from user fee collection is deposited in Consolidated Fund of India (CFI) and the fund provided

through budgetary allocation are utilised for further maintenance, development and augmentation of National Highways.

There is no provision in the National Highways Fee (Determination of Rates and Collection) Rules, 2008 for waiver of user fee based on waiting time at fee plazas.

Declaration of all lanes of fee plazas on National Highways as FASTag Lane of the fee plaza with effect from midnight of 15th/16th February, 2021, has resulted in seamless movement at user fee plazas, reduced waiting times, and alleviated congestion, thereby improving efficiency at fee plazas on National Highways. Impact Assessment conducted for the National Electronic Toll Collection (NETC) Programme during 2024–25 indicates that the average time taken by a vehicle to cross a fee plaza under ETC operations is around 40 seconds, compared to 12:23 minutes per vehicle under the earlier manual tolling system, demonstrating a substantial improvement in traffic flow and reduction in congestion.

Further, the Government from time to time has reviewed the tolling policy with the objective of ensuring a balanced approach between revenue requirements for highway development and minimizing burden on road users. To further reduce the burden on road users, Government has inter-alia made the following amendments:

(i) GSR 437(E) dated 01.07.2025, to restrict user fee for highways with more structure length.

(ii) GSR 01(E) dated 31.12.2025 for reduction of rates in case of up gradation from two lane paved shoulder highway to four or more lane.

(iii) G.S.R. 388 (E) dated 17.06.2025 introducing an Annual Pass for non-commercial cars, jeeps, and vans. This scheme offers 200 NH fee plaza crossings or one year validity, whichever is earlier, by payment of ₹ 3000/- (Rupees three thousand).

(iv) G.S.R. 734 (E) dated 03.10.2025 for reduction in applicable user fee for vehicles without FASTag or active FASTag vehicles from 2 times to 1.25 times, given the user opts for payment through UPI;

(v) G.S.R. 107 (E) dated 04.02.2026 for the fee payable for the use of a national expressway that is operational for only a part of its notified length shall be levied at a rate of one time of the applicable fee instead of 1.25 times.

Furthermore, to enhance toll operations and enable seamless movement of vehicles, the Government has decided to implement Multi-Lane Free Flow (MLFF) Electronic Toll Collection System, which facilitates barrier-free tolling using integrated technologies including Automatic Number Plate Recognition (ANPR) with Artificial Intelligence analytics and high performance Radio Frequency Identification (RFID) - based Electronic Toll Collection (FASTag), where the user fee shall be charged from the vehicle users without halting at the toll plaza for the purpose.

GOVERNMENT OF INDIA
MINISTRY OF JAL SHAKTI
DEPARTMENT OF WATER RESOURCES, RIVER DEVELOPMENT & GANGA REJUVENATION
LOK SABHA
UNSTARRED QUESTION NO. 58
ANSWERED ON 29.01.2026

REHABILITATION AND MONITORING OF DAMS IN MAHARASHTRA

58. Ms. PRANITI SUSHILKUMAR SHINDE:

Will the Minister of **JAL SHAKTI** be pleased to state:

- (a) whether the Government has developed and operationalised a real-time digital water storage monitoring system for the 167 dams in Maharashtra covered under Dam Rehabilitation and Improvement Project (DRIP) Phase II & III and if so, the details thereof including key specifications of the system such as frequency of updates, public accessibility, integration with disaster preparedness protocols and the implementation status for each dam;
- (b) the details of the dams in Maharashtra under DRIP Phase II & III where rehabilitation works have exceeded scheduled deadlines including dam-wise data on delays and corresponding budget utilisation especially Ujjaini Dam and Warna Dam in Solapur; and
- (c) the punitive or corrective actions instituted by the Government in case of repeated delays or misreporting of dam storage and repair data and the manner in which such actions are disclosed to the public and legislature to ensure accountability?

ANSWER

THE MINISTER OF STATE FOR JAL SHAKTI

(SHRI RAJ BHUSHAN CHOUDHARY)

(a) Under the externally funded Dam Rehabilitation and Improvement Project (DRIP), Phase-II, Maharashtra Water Resources Department (WRD) has proposed rehabilitation and safety improvements for 11 dams. As per the proposals submitted by the Maharashtra WRD to the Central Project Management Unit (CPMU) in the Central Water Commission, provisions have been made for the installation of automatic water level recorders at two dams namely Lower Wunna and Upper Wardha. These instruments will provide the hourly water level data and compute the corresponding storage values (derived from the elevation–capacity curve). This continuous monitoring will equip dam owners with accurate, real-time information to manage reservoir conditions more effectively.

(b) The details of the dams in Maharashtra under DRIP Phase-II, where rehabilitation works have extended beyond the originally scheduled completion period, along with the corresponding expenditure incurred, are provided at **Annexure**.

It is further informed that Ujjaini and Warna Dams are not included under DRIP Phase-II.

(c) The Government of Maharashtra has informed that no punitive actions have been initiated in this regard to date. As DRIP is a State Sector Scheme with a Central component, all necessary technical and monitoring support for DRIP activities is being extended to the implementing agencies. Senior-level officers, including dam authorities, have been sensitized to expedite implementation. Wherever technical assistance is required to address issues, it is being appropriately provided. Furthermore, site visits are conducted regularly at dams where rehabilitation works are in progress. Based on these visits, any corrective measures found necessary are discussed and formally communicated to the respective dam authorities for timely action.

ANNEXURE REFERRED TO IN REPLY TO PART (b) OF UNSTARRED QUESTION NO. 58 TO BE ANSWERED IN LOK SABHA ON 29.01.2026 REGARDING “REHABILITATION AND MONITORING OF DAMS IN MAHARASHTRA”.

Details of the dams in Maharashtra under DRIP Phase-II, where rehabilitation works have extended beyond the originally scheduled completion period

GOVERNMENT OF INDIA
MINISTRY OF JAL SHAKTI
DEPARTMENT OF WATER RESOURCES, RIVER DEVELOPMENT & GANGA REJUVENATION
LOK SABHA

UNSTARRED QUESTION NO. 143

ANSWERED ON 29.01.2026

STATUS AND SAFETY OF OLD DAMS

143. SHRI G LAKSHMINARAYANA:

Dr. BYREDDY SHABARI:

Will the Minister of **JAL SHAKTI** be pleased to state:

- (a) the total number of dams in the country that are over fifty years old, State-wise and year of commissioning-wise;
- (b) whether the Government has conducted structural safety audits or vulnerability assessments of these dams and if so, the details thereof along with the number of such dams identified as requiring urgent repair, rehabilitation or modernisation;
- (c) the details of repair and rehabilitation works carried out during the last five years under the Dam Rehabilitation and Improvement Project (DRIP) or any other Central/State-funded programme;
- (d) the total funds allocated, released and utilised for the said works, State and scheme-wise; and
- (e) whether any dams have been identified as unsafe or at risk of failure and if so, the details thereof along with the steps being taken to ensure their safety and to prevent potential hazards?

ANSWER

THE MINISTER OF STATE FOR JAL SHAKTI

(SHRI RAJ BHUSHAN CHOUDHARY)

(a) As per the National Register of Specified Dams (NRSD), 2025 compiled by the National Dam Safety Authority, there are 1,681 specified dams that are over fifty years old. Comprehensive state-wise details of the specified dams, along with their respective years of commissioning is accessible via the link: [https://dharma.cwc.gov.in/#/national-register-of-specified-dams-\(nrsd\)-2025](https://dharma.cwc.gov.in/#/national-register-of-specified-dams-(nrsd)-2025)

(b) Responsibility for safety of dams, including its operation and maintenance rests primarily with dam owners. In accordance with the provisions of the Dam Safety Act, 2021, every owner of a specified dam is mandated to conduct every year a pre-monsoon inspection and post-monsoon inspection of each specified dam under their jurisdiction. As per this compliance, dam owning agencies have reported the pre-monsoon & post-monsoon inspections of about 6524 and 6553 dams respectively for the year 2025.

As an outcome of pre-monsoon and post-monsoon inspections, dams are being categorized into three categories on the basis of urgency of repairs/maintenance. Category-III requires minor remedial measures which are rectifiable during the year. Category-II indicates major deficiencies requiring prompt remedial measures and Category-I indicate the most serious deficiencies, which if left unattended, may lead to their failure.

As per the information provided by the National Dam Safety Authority, the post-monsoon inspection reports of 2025 indicate that three specified dams have been classified under Category-I. These include the Medigadda Barrage in Telangana, the Lower Khajuri Dam in Uttar Pradesh, and the Bokaro Barrage in Jharkhand.

In addition, 216 dams have been categorized under Category-II. Of these, 69 specified dams are more than fifty years old.

(c) & (d) To improve the safety and operational performance of selected existing dams across the country along with institutional strengthening for dam safety, Govt. of India is implementing the Dam Rehabilitation and Improvement Project (DRIP), Phase-II and III. The scheme is of 10 years duration (2021-2031), being implemented in two phases, each of 6 years duration with 2 years of overlap with external funding. The scheme envisages the rehabilitation and safety enhancement of 736 dams spread across 19 States and three Central agencies, with a total financial outlay of Rs. 10,211 crores. DRIP Phase-II has become operational from 12th October 2021, and is being co-financed by the World Bank and the Asian Infrastructure and Investment Bank (AIIB). The financial outlay for Phase II is Rs. 5,107 crores, while Phase III has an allocation of Rs. 5,104 crores.

Rehabilitation and improvement works under the Scheme aim to enhance dam safety and flood-handling capacity through structural and non-structural measures. These include raising parapet walls, improving spillways, preparing O&M Manuals and Emergency Action Plans, repairing or replacing gates and hydro-mechanical components, strengthening dam structures with grouting and seepage control, and upgrading safety facilities such as access roads, lighting, catwalks, and DG sets.

Under the ongoing DRIP-II Scheme, rehabilitation proposals (called Project Screening Template, PST) of 173 dams amounting to Rs. 4,744 crores have been approved. Contracts amounting to Rs. 2816 crores have been awarded by the various Implementing States/agencies. The total expenditure under DRIP-II scheme up to 31st December 2025 is Rs. 2029 crores. Major physical rehabilitation works have been completed at 35 dams.

State/Agency-wise details of funds allocated and expenditure incurred under DRIP-II Scheme are given at **Annexure**.

(e) Based on the post-monsoon inspection reports of 2025, three dams have been classified under Category-I, reflecting serious safety concerns and vulnerabilities that pose significant risks and demand urgent intervention to ensure their continued safe operation. Of these, two Category-I dams namely Lower Khajuri Dam in Uttar Pradesh and the Bokaro Barrage of the Damodar Valley Corporation have been included under the DRIP-II Scheme for rehabilitation and safety enhancement.

With regard to the third Category-I dam, the Lakshmi (Medigadda) Barrage, the State has been requested to implement the various preventive and mitigating measures recommended by the National Dam Safety Authority to safeguard the structure's integrity and resilience.

ANNEXURE REFERRED TO IN REPLY TO PART (c) & (d) OF UNSTARRED QUESTION NO. 143 TO BE ANSWERED IN LOK SABHA ON 29.01.2026 REGARDING “STATUS AND SAFETY OF OLD DAMS”.

State/Agency-wise Fund allocation and Expenditure under DRIP Phase-II

(As on 31st December 2025)

**Government of India
Ministry of Youth Affairs & Sports
Department of Sports**

**LOK SABHA
UNSTARRED QUESTION NO. 292
TO BE ANSWERED ON 02.02.2026**

Establishment of Sports Stadium in Mahendergarh, Haryana

292. SHRI DHARAMBIR SINGH:

Will the Minister of YOUTH AFFAIRS AND SPORTS be pleased to state:

- (a) whether the Government has identified districts with a high concentration of national and international sportspersons for development of international-level sports infrastructure;**
- (b) whether the absence of an international-standard stadium in such districts is affecting advanced training, hosting of tournaments and athlete performance;**
- (c) whether the Government maintains data on sportspersons representing country at national and international levels from the Bhiwani–Mahendergarh Lok Sabha Constituency;**
- (d) whether proposals for establishment of international-level multi-sports stadiums are considered under existing Central Schemes;**
- (e) whether land availability and support from the State Government are essential criteria for sanctioning such facilities, if so, the details thereof; and**
- (f) whether the Government has a plan to consider establishing an international-level sports stadium in Mahendergarh district in view of its significant contribution to national and international sporting achievements?**

**ANSWER
THE MINISTER OF YOUTH AFFAIRS & SPORTS
[DR. MANSUKH MANDAVIYA]**

(a) to (c) ‘Sports’ being a State subject, the responsibility of development of sports, including identifying districts with high concentration of national and international sportspersons for development of international-level sports infrastructure, developing international-standard stadium for advance training, hosting of tournaments and athlete performance, maintaining data on sportspersons representing country at national and international levels, rests primarily with the respective State/Union Territory Governments. The Union Government only supplements their efforts by bridging critical gaps. However, the Ministry of Youth Affairs and Sports implements the following schemes for development of sports in the country, including in the Bhiwani–Mahendergarh Lok Sabha Constituency of Haryana:

- (i) Khelo India - National Programme for Development of Sports;**
- (ii) Assistance to National Sports Federations;**
- (iii) Cash Incentive to Medal Winners in International Sports Events and their Coaches;**
- (iv) National Sports Awards;**
- (v) Pension to Meritorious Sportspersons;**
- (vi) Pandit Deendayal Upadhyay National Welfare Program for Sportspersons;**
- (vii) National Sports Development Fund; and**
- (viii) Running Sports Training Centres through Sports Authority of India (SAI).**

Details of the above schemes are available in the public domain on the websites of this Ministry and the Sports Authority of India.

Under Khelo India Scheme, this Ministry has approved 344 sports infrastructure projects, notified 1067 Khelo India Centres, 35 Khelo India State Centres of Excellence and accredited 322 sports academies across the country, including in the Bhiwani–Mahendergarh Lok Sabha Constituency of Haryana. Details are available in the public domain on the dashboard of the Ministry at <https://dashboard.kheloindia.gov.in>.

Details of athletes under the Target Olympic Podium Scheme (TOPS) who are representing the country at National and International levels from the Bhiwani–Mahendergarh Lok Sabha Constituency are as under:

S. No.	Name	Discipline	Area
1.	Ms. Laxmi	Boxing	Bhiwani
2.	Ms. Preeti	Boxing	Bhiwani

3.	Ms. Jaismine	Boxing	Bhiwani
4.	Ms. Reena	Wrestling	Charkhi Dadri

In addition, a total of 51 National and International athletes from the Bhiwani–Mahendergarh Lok Sabha Constituency are under the Khelo India Scheme.

(d) No.

(e) As per the Operational Guidelines of the Khelo India Scheme and National Sports Development Fund (NSDF), it is mandatory for the grantee, including State Government, to submit Land Availability Certificate for availing financial assistance for development of sports infrastructure.

(f) No.

GOVERNMENT OF INDIA
MINISTRY OF ENVIRONMENT, FOREST AND CLIMATE CHANGE

LOK SABHA
UNSTARRED QUESTION NO. 299
TO BE ANSWERED ON 02.02.2026

Assessment of Climate Vulnerability of Bihar

299. SHRI ARUN BHARTI:

Will the Minister of ENVIRONMENT, FOREST AND CLIMATE CHANGE be pleased to state:

- (a) whether the Government has conducted any assessment of Bihar's vulnerability to climate change, particularly concerning increased frequency of floods, droughts and heatwaves;
- (b) the current status of the State Action Plan on Climate Change (SAPCC) for Bihar and the financial support provided by the Centre for its implementation;
- (c) the steps taken/being taken under the National Adaptation Fund for Climate Change (NAFCC) to support climate-resilient agriculture in Bihar;
- (d) whether any specific climate adaptation projects are being implemented in the drought-prone regions of Jamui and Munger; and
- (e) the details of the measures taken and the mechanism in place to strengthen the early warning systems for extreme weather events in the State?

ANSWER

MINISTER OF STATE IN THE MINISTRY OF ENVIRONMENT, FOREST AND CLIMATE CHANGE
(SHRI KIRTI VARDHAN SINGH)

(a) and (b). According to the Third National Communication submitted to the United Nations Framework Convention on Climate Change (UNFCCC), an assessment of the vulnerability of India's districts was carried out in 2020 under the aegis of the Department of Science and Technology (DST). The report titled "Climate Vulnerability Assessment for Adaptation Planning in India Using a Common Framework" emphasises that all regions in India are vulnerable to the impacts of climatic events.

As per the Govt. of Bihar, the Department of Environment, Forest and Climate Change, has also conducted studies on climate profiling and vulnerability analysis for the State. It has also been stated by the Govt. of Bihar that the Bihar State Disaster Management Authority has done the heat wave mapping for the state and prepared the Bihar State Heat Action Plan.

Aligned with the National Action Plan on Climate Change (NAPCC), which provides for overarching framework for India's climate actions, the Government of Bihar has prepared State Action Plan on Climate Change (SAPCC).

The state governments are expected to provide the resources for implementing the SAPCC in their plan outlay for the respective sectors in convergence with relevant schemes and programmes of the respective states as well as of Govt. of India.

Additionally, the Ministry of Environment, Forest and Climate Change, Govt. of India, has provided financial assistance for preparation of SAPCC for the State of Bihar. Further, the Ministry of Science and Technology, Govt. of India, has established the State Climate Change Cell (SCCC) in Bihar under one of the missions of National Action Plan on Climate Change (NAPCC) – National Mission on Strategic Knowledge on Climate Change (NMSKCC). The SCCC, Bihar assists the state to take up vulnerability and risk assessment, conduct human capacity building programmes, public awareness programmes, institutional capacity building and for the implementation of actions selected for sustainable development by the state as part of their State Action Plans. As part of the project, the studies are undertaken at District level, which may be further useful for climate adaptation planning using a common framework.

(c) and (d) Under National Adaptation Fund for Climate Change, Government of Bihar is implementing a project titled “Scaling up Climate Smart Agriculture (CSA) through Mainstreaming Climate Smart Villages (CSVs) in Bihar” in eight districts of the State; namely, Patna, Nalanda, Bhagalpur, Munger, Purne, Katihar, Samastipur and Darbhanga. The objective of the project is to improve the adaptive capacity of rural community to climate change through enhancing the portfolios of climate resilient agriculture interventions in targeted villages of Bihar. The project activities are related to climate smart agriculture interventions in accordance to farmer's socio economic and the prevalent bio-physical conditions, enhancing the capacities of stakeholders for implementing and sustaining the climate change adaptation strategies and mainstreaming adaptation strategies into policies and programmes through better knowledge management and sharing.

As per the Ministry of Agriculture and Farmers Welfare, Govt. of India, several schemes have been initiated under one of the missions of NAPCC i.e. National Mission for Sustainable Development to promote sustainable agriculture practices. Further, Pradhan Mantri Fasal Bima Yojana along with weather index based Restructured Weather Based Crop Insurance Scheme provides a comprehensive insurance cover against crop failure by providing financial support to farmers suffering crop loss/ damage arising out of unforeseen natural calamities.

(e) Steps have been taken to improve monitoring and early warning systems, which has helped minimize loss of life and property during extreme weather events, including heat waves, floods, etc. Under the aegis of Ministry of Jal Shakti, Central Water Commission (CWC) monitors riverine floods at hydrological stations and issues forecasts to concerned State Govt. at identified locations & Dams/Barrages respectively. The CWC maintains 43 Flood Forecasting stations in Bihar. CWC is also providing seven-day advisory flood forecast to all stakeholders through Flood Forecasting Website (<https://ffs.indiawater.gov.in/>), Flood Watch India 2.0 App, FAX, E-mails, Telephone, and social media platforms.

The National Disaster Management Authority (NDMA) has developed national guidelines on heatwave management, which laid the foundation for decentralized Heat Action Plans (HAPs). Heat Action Plans (HAPs) in 23 States that are prone to heatwave conditions including Bihar were jointly implemented by the National Disaster Management Authority (NDMA) in collaboration with the State Governments.

As per the State Government, Bihar Mausam Seva Kendra (BMSK) Society has been established under Planning and Development Department, Govt. of Bihar. BMSK provide localized weather forecasts, climate information, and disaster warnings for Bihar, using advanced GIS technology and monitoring network to help farmers, disaster management, and public to make informed decisions, ensuring safety and promoting climate resilience through timely, sector-specific advisories via mobile apps like "Mausam Bihar".

GOVERNMENT OF INDIA
MINISTRY OF EDUCATION
DEPARTMENT OF SCHOOL EDUCATION & LITERACY
LOK SABHA
UNSTARRED QUESTION NO:- 398
ANSWERED ON-02/02/2026

Old Pension Scheme

†398. **Shri Ramashankar Vidharthi Rajbhar:**

Will the Minister of **EDUCATION** be pleased to state:

- (a) whether the Government proposes to restore the old pension schemes for teachers at the centre and in the States/UTs, if so, the details thereof and if not, the reasons therefor;
- (b) the details of the main reasons for pending appointments of teachers, stalled joining of teachers and selected candidates not getting appointment despite advertised post in various States/UTs; and
- (c) the current status of recruitment of 69,000 assistant teachers in Uttar Pradesh along with the number of candidates appointed so far and the number of cases pending in court or the department?

ANSWER

MINISTER OF STATE IN THE MINISTRY OF EDUCATION
(SHRI JAYANT CHAUDHARY)

(a) to (c): Education being a subject in the Concurrent List of the Constitution, an overwhelming majority of schools in the country are under the administrative control of the respective State Governments and Union Territory Administrations. Accordingly, matters relating to recruitment, service conditions, including pensionary benefits, deployment of teachers, and court cases arising therefrom fall primarily within the administrative domain of the concerned State Governments/UT Administrations. Therefore, issues relating to pending appointments of teachers, delayed joining of teachers, and non-appointment of selected candidates against advertised posts in various States/UTs are dealt with by the respective State Governments/UT Administrations.

The Government of India periodically advises the States/UTs to fill up vacant posts of teachers and to ensure timely recruitment through transparent and merit-based processes, including recruitment through autonomous teacher recruitment boards or similar bodies. The progress relating to filling up of teacher vacancies through competitive selection examinations conducted by the States/UTs, with due regard to consistency, sanctity and after undertaking technology-based comprehensive teacher requirement planning and forecasting exercises, is reviewed periodically through regular meetings with States/UTs as well as through advisories.

Further, under the Centrally Sponsored Scheme of Samagra Shiksha, the Central Government provides financial assistance to States/UTs for maintaining appropriate Pupil–Teacher Ratios

(PTR) and for teacher-related interventions, including in-service training, teacher capacity building, and institutional academic support through SCERTs, DIETs, BRCs and CRCs.

The Department also supports States/UTs in the adoption of ICT platforms such as DIKSHA and PM e-VIDYA, and in strengthening cluster-level academic support through BRCs and CRCs, to provide on-demand resources and pedagogical support to teachers and to mitigate, to the extent possible, the academic impact arising from staff shortages.

The pensionary benefits of employees of the Kendriya Vidyalaya Sangathan (KVS), which functions under the Central Government, are governed by the Central Civil Services (Pension) Rules, 1972, as amended from time to time, in respect of employees who joined KVS service up to 31.12.2003. Employees who joined the Kendriya Vidyalaya Sangathan on or after 01.01.2004 are covered under the National Pension System (NPS).

In respect of the Navodaya Vidyalaya Samiti (NVS), employees who joined service prior to 01.01.2004 are governed by the Contributory Provident Fund (CPF) scheme. Employees who joined the Navodaya Vidyalaya Samiti on or after 01.04.2009 are mandatorily covered under the New Pension Scheme (NPS). Employees who joined between 01.01.2004 and 01.04.2009 were provided a one-time option to choose between the CPF and NPS schemes. While a few employees opted for the NPS, the majority exercised the option for the CPF scheme. At present, employees of the Navodaya Vidyalaya Samiti are covered either under the Contributory Provident Fund (CPF) scheme or the New Pension Scheme (NPS), as applicable.

The Government of Uttar Pradesh has informed that, in respect of the recruitment of 69,000 Assistant Teachers, a Special Leave Petition (Diary No. 38554/2024) titled Ravi Kumar Saxena & Others vs. State of Uttar Pradesh & Others has been filed before the Hon'ble Supreme Court against the order dated 13.08.2024 passed in Special Appeal No. 172/2023 (Mahendra Pal & Others vs. State of Uttar Pradesh & Others) and other connected special appeals, which arose out of the order dated 13.03.2023 passed in Writ Petition No. 13156/2020 (Mahendra Pal & Others vs. State of Uttar Pradesh & Others) and other connected petitions before the Hon'ble Allahabad High Court, Lucknow Bench.

**GOVERNMENT OF INDIA
MINISTRY OF COOPERATION**

**LOK SABHA
UNSTARRED QUESTION NO. 483
TO BE ANSWERED ON 3rd FEBRUARY, 2026**

MODERNIZATION OF TRAINING INSTITUTES

483. Dr Nishikant Dubey:

Will the Minister of COOPERATION (सहकारिता मंत्री) be pleased to state:

- (a) the details of the measures taken by the Government to modernize the functions of cooperative institutes in the country;
- (b) whether any State Government has raised objections regarding modernization of cooperative institutions; and
- (c) if so, the details thereof?

ANSWER

**THE MINISTER OF COOPERATION
सहकारिता मंत्री (SHRI AMIT SHAH)**

(a) to (c): In order to strengthening cooperative movement in the country; deepening its reach to the grassroots; modernize the functions of the cooperative institutions, the Ministry of Cooperation (MoC) is continuously reviewing the infrastructure available with its Institutes and modernizing them as per need to strengthen their Computer and Information Technology (CIT) infrastructure to support training, administration, and digital outreach.

Apart from making the classrooms and auditoriums smart, the Government has also taken steps to upgrade the building infrastructure of its Institutes to enhance academic and residential capacities.

- i. A new 3-storied International Hostel has been added to the existing infrastructure at VAMNICOM with 50 twin-sharing rooms and 3 VIP suites. The hostel also has a Kitchen, a Dining Hall, a Reading room, a classroom of 50 capacity, a discussion room, a gymnasium and an office space. This building has been constructed out of the Capital Grant of Rs.30 crore received from the Ministry of Cooperation, Govt. of India.
- ii. Under the Rashtriya Krishi Vikas Yojana (RKVY), a grant of ₹27.29 crore was provided to D.N.S Regional Institute of Cooperative Management (RICM), Patna for the construction of a new hostel facility to attract students and participants for enrolment for the paid programmes.
- iii. Institute of Cooperative Management (ICM), Guwahati and ICM, Madurai both are being relocated to a new site and their buildings will be constructed as per the

modernized requirements. After construction, both the institutes will have their own future smart buildings.

In addition, the measures and initiatives undertaken by the Government to modernize the functions of cooperative institutions in the country, together with other related initiatives, are provided at Annexure-I.

Annexure-I.

1. Preparation of Model Bye-Laws for Primary Agriculture Credit Societies (PACS), making them multipurpose, multidimensional, and transparent entities
2. Computerization of PACS
3. Establishing New Multipurpose PACS/ Dairy/ Fishery Cooperatives to cover all the Panchayats and launch of related Margdarshika/ SOP:
4. World's Largest Decentralized Grain Storage Plan in the Cooperative Sector and launch of related Margdarshika/ SOP
5. PACS as Common Service Centers (CSCs) for better access to e-services:
6. Formation of new Farmer Producer Organizations (FPOs) by PACS:
7. PACS given priority for Retail Petrol/ Diesel outlets:
8. PACS permitted to convert bulk consumer petrol pumps into retail outlets:
9. PACS eligible for LPG Distributorship for diversifying its activities;
10. PACS as PM Bharatiya Jan Aushadhi Kendra for improving access to generic medicines at the rural level;
11. PACS as Pradhan Mantri Kisan Samridhhi Kendras (PMKSK);
12. PACS to carry out O&M of rural piped water supply schemes (PWS);
13. Convergence of PM-KUSUM at PACS level;
14. Convergence of PM Surya Ghar – Muft Bijli Yojana (PMSG–MBY) at the Cooperative Societies level;
15. NAFCUB, approved by RBI as an Umbrella Organization for UCBs, supports 1,500 banks with IT infrastructure and services like Digi Loan and Digi Pay;
16. Micro-ATMs to Bank Mitra Cooperative Societies for providing doorstep financial services;
17. Rupay Kisan Credit Card to Members of Milk Cooperatives;
18. Formation of Fish Farmer Producer Organization (FFPO);
19. Cooperative-led "White Revolution 2.0" launched to boost dairy cooperatives, employment, and women's empowerment nationwide;
20. Urban Cooperative Banks (UCBs) have been allowed to open new branches to expand their business and have been allowed by the RBI to offer doorstep services to their customers;
21. A Nodal Officer designated in RBI for regular interaction with UCBs;
22. Relief for Urban Cooperative Societies (UCBs) by reducing PSL target from 75% to 60%;
23. Housing loan limit for Urban Cooperative Banks increased from 10% to 25%;
24. Relief in sub-limit of 12% sub-limit (weaker sections) by withdrawing of target of ₹ 2 lakh for women loan repayment;
25. Relief to Urban Cooperative Institutions by increasing 50% loan limit from ₹ 1 crore to ₹ 3 crore;
26. Monetary ceiling for Gold Loan has been removed by RBI;
27. Cooperative banks have been allowed to make one-time settlement of outstanding loans, like Commercial Banks;
28. License fee reduced for Cooperative Banks for 'Aadhaar Enabled Payment System' (AePS);
29. Sahakar Sarathi Pvt. Ltd., approved by RBI, established to strengthen Rural Cooperative Banks with 13 new tech services;

30. Task Force under NABARD formed to strengthen Rural Co-operative Banking sector as per National Cooperation Policy 2025;
31. Resolution of decades-old pending issues related to Income Tax of Sugar Cooperative Mills;
32. Initiative to set up tissue culture facilities for Bananas;
33. Training Programme for PACS for CSC Portal;
34. Computerization of the Central Registrar's Office;
35. Computerization of Agriculture and Rural Development Banks (ARDBs);
36. "Bharat Taxi": Cooperative-led mobility initiative to empower drivers and offer affordable, reliable transport, launching February 2026;
37. Inclusion of Cooperatives as 'buyers' on GeM (Government e-Marketplace) portal

GOVERNMENT OF INDIA
MINISTRY OF COMMERCE AND INDUSTRY
DEPARTMENT OF COMMERCE
LOK SABHA
UNSTARRED QUESTION NO. 555
ANSWERED ON 03/02/2026

SECTOR-WISE EXPORT DECLINES DUE TO U.S. TARIFFS

555. SHRI ESWARASAMY K:

Will the Minister of **COMMERCE AND INDUSTRY** (वाणिज्य एवं उद्योग मंत्री) be pleased to state:

- (a) whether the Government has collected data on the sector and State-wise decline in exports to the United States following the imposition of increased tariffs from April 2025 onwards, if so, the details thereof;
- (b) the details of export contraction in major sectors such as smartphones, pharmaceuticals, gems and jewellery, solar panels, metals and auto parts, along with the estimated loss in production output;
- (c) whether the Government has conducted any analysis on the comparative tariff structure that has allowed competing countries such as Vietnam, Mexico and China to capture India's lost market share, if so, the details thereof; and
- (d) the measures proposed to support affected export clusters particularly MSME-dominated regions like Surat, Mumbai and Coimbatore to prevent further erosion of India's export base?

ANSWER

वाणिज्य एवं उद्योग मंत्रालय में राज्यमंत्री (श्री जितिन प्रसाद)
THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY
(SHRI JITIN PRASADA)

(a) & (b) The Government of India continues to monitor and promote India's exports. Details of India's export performance in the year 2025 for the period April to December compared to the same period in 2024 is as given below:

India's Export (Values in USD Billion)

India's Exports to	Apr-Dec-2024	April-Dec-2025
U S A	60.03	65.88
World	322.41	330.24

Source:DGCIIS

Sectoral performance of India's global merchandise exports may be seen at the following link:

https://tradestat.commerce.gov.in/ftspcc/export_commodity_wise

(c) The tariffs in the U.S. are cumulative in nature and comprise the applicable Most-Favoured-Nation (MFN)/ Preferential tariff as well as additional duties imposed under U.S. domestic laws, including measures taken citing national security, national emergency etc and any applicable anti-dumping and countervailing duties. Consequently, the total tariff varies depending on both the product and the country of origin. Information on these tariffs and duties may be accessed through relevant official U.S. government websites, including:
https://www.usitc.gov/harmonized_tariff_information
<https://www.federalregister.gov>
<https://www.cbp.gov/trade>

(d) The Government continues to work to mitigate the impact of the US tariff measures on Indian exports through a comprehensive multi-pronged strategy encompassing intensive engagement with the US Government for a mutually beneficial India-US Bilateral Trade Agreement, immediate relief through Trade relief measures of RBI, Credit Guarantee Scheme for Exporters, enhancement of domestic demand through next generation GST reforms, Export Promotion measures such as the new Export Promotion Mission which provide support and assistance to our exporters, pursuing FTAs with new countries and better utilization of existing FTA. It is expected that these measures will also enhance diversification and resilience in India's trade relationships.

Details of some of the aforementioned measures are as follows:

1. Export Promotion Mission (EPM)

The Mission will provide a comprehensive, flexible, and digitally driven framework for export promotion, with a total outlay of Rs.25,060 crore for FY 2025–26 to FY 2030–31. EPM marks a strategic shift from multiple fragmented schemes to a single, outcome-based, and adaptive mechanism that can respond swiftly to global trade challenges and evolving exporter needs.

The Mission will operate through two integrated sub-schemes:

- i. NIRYAT PROTSAHAN – focuses on improving access to affordable trade finance for MSMEs through a range of instruments such as interest subvention, export factoring, collateral guarantees, credit cards for e-commerce exporters, and credit enhancement support for diversification into new markets.
- ii. NIRYAT DISHA – focuses on non-financial enablers that enhance market readiness and competitiveness, including export quality and compliance support, assistance for international branding, packaging, and participation in trade fairs, export warehousing and logistics, inland transport reimbursements, and trade intelligence and capacity-building initiatives.

The Mission is designed to directly address structural challenges that constrain Indian exports, including:

- limited and expensive trade finance access,
- high cost of compliance with international export standards,
- inadequate export branding and fragmented market access, and
- logistical disadvantages for exporters in interior and low-export-intensity regions.

Under EPM, priority support will be extended to sectors impacted by recent global tariff escalations, such as textiles, leather, gems & jewellery, engineering goods, and marine products. The interventions will help sustain export orders, protect jobs, and support diversification into new geographies.

2. **Credit Guarantee Scheme for Exporters** has also been approved to provide 100% credit guarantee coverage by National Credit Guarantee Trustee Company Limited (NCGTC) to Member Lending Institutions (MLIs) for extending additional collateral free credit facilities up to Rs.20,000 crore to eligible exporters, including MSMEs. The Scheme is expected to enhance the global competitiveness of Indian exporters and support diversification into new and emerging markets.
3. **Trade Relief Measures :-**The Reserve Bank of India (RBI) has also initiated trade relief measures for eligible affected exporters including provision for debt repayment moratorium and extension of tenor for export credit.
4. **Leveraging Free Trade Agreements:** The Government aims for promotion of Export Diversification and has signed Free Trade Agreements (FTAs) and Preferential Trade Agreements (PTAs) with key trading partners. Government is working with all stakeholders to enable our exporters to better utilize the benefits of India's FTAs with major markets such as Japan, Korea, UAE, Australia etc. and effectively utilize the opportunities that have been created with the recently concluded FTAs such as with the EFTA countries, UK, Oman and New Zealand. The Government has also recently concluded negotiations on an FTA with the European Union.

SHRI RAJIV PRATAP RUDY:**

Will the Minister of **HEALTH AND FAMILY WELFARE** be pleased to state:

- (a) whether the Government is aware of the issues of low package rates under Ayushman Bharat-Pradhan Mantri Jan Arogya Yojana (AB-PMJAY) discouraging private hospital empanellment, resulting in denial of treatment in certain cases, if so, the details thereof;
- (b) whether there is any proposal to increase emergency treatment codes and address the exclusion of specialities such as Neurology and mandatory referral requirements that are causing hardship to patients, if so, the details thereof along with the corrective steps proposed to be taken by the Government in this regard;
- (c) whether any actions has been taken by the Government to resolve issues such as face authentication failures, OTP problems, conversion from BPL to APL ration cards, non-linkage with Kutumb ID affecting beneficiary access, if so, the details thereof;
- (d) whether the Government is aware of the inadequate availability of specialist doctors in district hospitals, and the denial of referrals for cancer, other critical treatments under the scheme and if so, the remedial measures proposed to be taken by the Government in this regard; and
- (e) whether any steps are being taken by the Government to revise package rates, expand emergency coverage, streamline verification systems and strengthen grievance redressal mechanisms to ensure uninterrupted treatment to all beneficiaries under the scheme, if so, the details thereof?

**ANSWER
THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND
FAMILY WELFARE
(SHRI PRATAPRAO JADHAV)**

(a) to (e): Since the launch of the Ayushman Bharat - Pradhan Mantri Jan Arogya Yojana (AB-PMJAY) scheme in September 2018, the health benefit packages have been revised from time to time. Initially, the scheme included 1391 packages, but the latest Health Benefit Package 2022, now comprises 1,961 packages across 27 specialties including procedures related to Neurosurgery.

Further, the latest Health Benefit Package 2022 provides comprehensive bundled packages covering the entire treatment cycle. This includes pre-hospitalization expenses for up to 3 days (covering diagnostics, premedication and consultation), complete hospitalization including medical, surgical treatment, anesthesia and implants (where applicable), and post-hospitalization care up to 15 days including drug expenses and follow-up care, thereby ensuring cashless, standardized and quality treatment under AB-PMJAY.

The referral mechanism is not mandatory under AB-PMJAY, however, some states follow a referral system based on their respective state-specific guidelines as flexibility in implementation is available to the states under the scheme.

Under AB-PMJAY, Aadhaar-based authentication is mandatory for creation of Ayushman cards and availing treatment. The authentication can be carried out through multiple modes, including Aadhaar OTP, face authentication, fingerprint scan and iris scan. In case of face authentication failure, the operator/beneficiary may use another mode of authentication.

Further, National Health Authority, in coordination with State Health Agencies, continuously addresses operational concerns related to beneficiary identification and verification to ensure seamless services under the scheme.

Under the scheme, a Centralized Grievance Redressal Management System (CGRMS) has been established, along with a 24×7 toll-free helpline (14555), to facilitate grievance redressal. Beneficiaries can register their grievances through the CGRMS portal or toll-free helpline number. Under AB-PMJAY, such grievances are monitored through a three-tier grievance redressal mechanism at the District, State, and National level. At each level, designated nodal officers and Grievance Redressal Committees are in place to examine and resolve the grievances.

**GOVERNMENT OF INDIA
MINISTRY OF ROAD TRANSPORT AND HIGHWAYS**

**LOK SABHA
UNSTARRED QUESTION NO - 6221
ANSWERED ON 02TH APRIL 2026**

MAINTENANCE AND REPAIR OF NATIONAL HIGHWAYS

6221. DR. KIRSAN NAMDEO:

SMT. JYOTSNA CHARANDAS MAHANT:

SHRI KISHORI LAL:

SHRI BENNY BEHANAN:

Will the Minister of ROAD TRANSPORT AND HIGHWAYS

सड़क परिवहन और राजमार्ग मंत्री

be pleased to state:

(a) the length of National Highways constructed since financial year 2018-19, along with total construction expenditure and the amount spent on their maintenance and repair during the five years of completion, year-wise and State-wise;

(b) the number of accidents and fatalities on National Highways since 2021 where potholes, surface defects or incomplete construction were recorded as contributing factors, year-wise and State-wise;

(c) whether any contractor has been penalised or blacklisted due to premature road deterioration or poor-quality construction and if so, the details thereof, State-wise;

(d) the details of National Highways passing through or constructed in Amethi district of Uttar Pradesh since financial year 2018-19, including the length constructed or upgraded, funds allocated and utilised, maintenance expenditure and the number of accidents reported on these stretches during the said period; and

(e) whether the Government has reviewed cost escalations in Bharatmala projects due to delays in land acquisition and the extent of such escalations, project-wise and if so, the details thereof?

ANSWER

THE MINISTER OF ROAD TRANSPORT AND HIGHWAYS (SHRI NITIN JAIRAM GADKARI)

(a) The State / Union Territory (UT)-wise and year-wise details of length of National Highways (NHs) constructed since financial year 2018-19 and expenditure incurred towards development & maintenance of NHs during the last five years is at Annexure-I and Annexure-II respectively.

(b) The Government publishes report on “Road Accidents in India” based on data received from States / UTs. As per the report, total number of road accidents on NHs due to all kinds of causes are as follows: -

Year	Total No. of Road Accidents on NHs	Total No. of Road fatalities on NHs
2021	1,28,825	56,007
2022	1,51,997	61,038
2023	1,50,177	63,112
2024	1,50,958	64,772

(c) The Government in the Ministry of Road Transport and Highways is primarily responsible for development and maintenance of NHs. As per information provided by the executing agencies of the NHs, major deficiencies in NH stretches during the last three years and the current year have been reported for 67 projects / stretches. The State / UT wise details of major deficiencies in NH stretches during the last three years and the current year along with status of its rectification works and action taken against contractors/ concessionaires’ consultants are at Annexure-III. Actions against defaulting agencies are taken up as per the provisions of the Contract/ Concession agreement in cases of deficiencies / damages, such as termination of contract agreement, levying of penalties/ liquidated damages, debarment / blacklisting, declaring as non-performers etc.

(d) 377 km length of NHs passing through Amethi district of Uttar Pradesh has been developed / upgraded since FY 2018–19 through various projects. Allocation of funds for development and maintenance of NHs are made State / Agency wise and not project

wise. State-wise & year-wise details of expenditure incurred towards development & maintenance of NHs during last five years is given at Annexure-II.

344 road accidents have been reported on NHs passing through Amethi district since 2021 (data based on electronic Detailed Accident Report is implemented since 2021).

(e) As per the latest available information, 85 under construction NHs projects including projects under Bharatmala Pariyojana are delayed by more than three years, attributable to various issues such as, bottlenecks relating to land acquisition, statutory clearances / permissions, utility shifting, encroachment removal, law & order issues, financial crunch affecting implementation capacity of concessionaire / contractor, poor performance of contractor / concessionaire, and Force Majeure events, such as, Covid-19 pandemic, Change of Law, etc.

The Government has undertaken various initiatives to prevent recurrence of delays and cost escalations. These include streamlining and expediting land acquisition and compensation using “BhoomiRashi” portal integrated with Public Finance Management System (PFMS) and GIS-based Land Acquisition Plan, revamping “Parivesh” Portal, to facilitate faster forest and environmental clearances, enabling online approval of General Arrangement of Drawings (GAD) of Road Over Bridge/ Road Under Bridge (ROB/ RUB), and leveraging the mechanism of review and resolution of bottlenecks / hindrances in ongoing projects, in active collaboration with the State Governments and other stakeholders. Government has also launched a web portal for Railway related clearances with defined timelines for various approvals.

The Government has put in place a strong framework using multiple mechanisms for monitoring project progress. Regular review meetings are conducted at various levels with stakeholders to assess project progress, and critical projects, such as those delayed by more than three years or pending for award/ appointment. Cost escalation is not incurred in all delayed projects. If delay is not attributable to the Contractor, escalation is paid as per contract conditions, which may or may not result in additional cost, depending upon final value of price escalation determined on actual completion of project. If delay is attributable to the

Contractor, damages are imposed and there is no additional cost due to delay.

Many State Governments conduct coordination meetings led by the Chief Secretary to resolve issues affecting project execution. Projects where issues remain unresolved are escalated for further review through the Project Monitoring Group. As a result of the above, no. of projects delayed by more than 3 years has come down from 152 in April 2024 to 79 in March 2026.

ANNEXURE-III

ANNEXURE REFERRED TO IN REPLY TO PART (c) OF LOK SABHA UNSTARRED QUESTION NO. 6221 ANSWERED ON 02.04.2026 ASKED BY DR. KIRSAN NAMDEO, SMT. JYOTSNA CHARANDAS MAHANT, SHRI KISHORI LAL AND SHRI BENNY BEHANAN REGARDING MAINTENANCE AND REPAIR OF NATIONAL HIGHWAYS

The State / Union Territory (UT) – wise details of major deficiencies in NH stretches in the last three years and current year along with status of its rectification works and action taken against contractors / concessionaires / consultants

State/ UT	S. No	Name of the Project	Year of incident	Details of Major damages / defects	Action Taken
Arunachal Pradesh	1	Permanent solution to Slip Zones on Papu – Yupia – Hoj – Potin section of NH-713A & NH-13 at Km 31.000 (Hoj Market), Km 38.300 (Yabi Village), Km 39.000 (Waterfall), Km 39.700 (Appa Crusher) and Km 40.300 (Crusher Point) in the state of Arunachal Pradesh	2024	RE wall Collapsed	Rectification of defective work initiated by the Contractor. Penalty of 5% of contract value imposed on Contractor.

State/ UT	S. No	Name of the Project	Year of incid ent	Details of Major damages / defects	Action Taken
Andhra Pradesh	2	Six-laning of Vijayawada bypass from Chinna Autupalli (Design Ch.0+000) to Gollapudi (Design Ch. 30+000) in Vijayawada – Gundugolanu Section of NH- 16 in the State of Andhra Pradesh under Bharatmala Pariyojana on Hybrid Annuity Mode	2024	Defects in the construction of RE wall.	Concessionaire commenced the rectification work based on recommendation /suggestion of RE wall Expert. Rs.10,99,235/- was recovered as damages from Concessionaire.
	3	6 laning of existing 4-lane road from Kalaparru (Design Km 1050.680) to Chinna Avutupalli (Design Km 1076.480) of NH-5 including 6-lane Hanuman Junction Bypass from	2025	Defects in the construction of RE wall.	Contractor rectified defects at his own cost. Show-cause notices issued to Contractor as per Contractual provisions.

State/ UT	S. No	Name of the Project	Year of incid ent	Details of Major damages / defects	Action Taken
		(Existing Km 1055.680 to Km 1060.800) (Design Ch.0.000 to Ch.6.720) (Total Design Length: 27.40 Km) in the State of Andhra Pradesh under NHDP Phase-V under Bharatmala Pariyojana on EPC Mode (Package-2)			
Bihar	4	Four Laning of Simaria-Khagaria Section of NH-31 from Km. 206.050 to Km. 266.282 (Design Chainage) and (Existing Chainage Km. 209.945 to Km. 270.000 of NH-31) in the State of Bihar on EPC Mode	2023	Issues reported by CRRI in quality of Concrete of superstructure in bridge at Km 264.946	Repair works taken up by Contractor as recommended in CRRI report
	5	Varanasi Mohania	2023	Major deficiencies in	Damages of INR 25 Cr imposed on

State/ UT	S. No	Name of the Project	Year of incid ent	Details of Major damages / defects	Action Taken
		(GTRIP/5; Package - IV A): 4L of existing 2L section from km. 65 to km. 317 of NH-2 in UP and Bihar on NH-2		structural elements	Contractor
	6	Chhapra-Hajipur Section of NH- 19 (New NH-31)	2023	Falling of concrete from the deck slab of Major Bridge at km 145+280 and Falling of Concrete from the Deck Slab of ROB at Ch 157+860.	Project Manager & Bridge Engineer of the Concessionaire were suspended. Reconstruction completed by concessionaire at their own cost.
	7	Umagaon- Saharsa PKG-IV (Kosi Bridge & approach Road)	2024	A girder collapsed during construction.	Chief Project Manager & Engineer (Launching) of Contractor suspended.
Chhattisgarh	8	4-Laning of Simga-Sargaon Section of NH- 200 (New NH- 130) from Km 48+580 to Km 91+026	2024	Cracks in Cement Concrete Panels	Rectifications initiated at cost of EPC Contractor.

State/ UT	S. No	Name of the Project	Year of incid ent	Details of Major damages / defects	Action Taken
	9	Rehabilitation & Upgradation 2-lane with paved shoulders configuration of Bilaspur Urdawal section in km 241.553 to 312.60 = 71.0476 km (Masanialala to Rengapali) on NH 200 (New NH 49) (Package-III)(Borai river MNB at km 217.358)	2025	Damage in slab of Minor bridge	The work is in Defect Liability Period and taken up by Contractor at his own cost.
Haryana	10	Flyover and underpass at Hero Honda Chowk NH 48	2024	Some portion of deck slab fallen down with settlement of the bituminous surface (MCW-01) on RHS at Ch. 36+350	Arbitration notice issued to Contractor for recovery of damages. Process of Rectification and repair works initiated.
	11	Delhi-Vadodara Expressway Pkg. 2	2024	Rutting	Authority has imposed damages amounting to Rs.48,61,243/- on the contractor for

State/ UT	S. No	Name of the Project	Year of incid ent	Details of Major damages / defects	Action Taken
					delayed maintenance. Rectification of rutting has been taken up by Contractor and majority of the rutted portion has been rectified.
	12	Delhi-Vadodara Expressway Pkg. 3	2024	Rutting	Authority has imposed damages amounting to Rs. 42,95,049/- on the contractor for delayed maintenance. Rectification of rutting has been taken up by Contractor and majority of the rutted portion has been rectified.
Gujarat	13	Sanchore-Santalpur Package-4	2025	Ruts, cracks and surface deformation/ Distress was observed recently after rains in June month 2025,	Penalty of ₹2.8 crore has been imposed on the Contractor along with a recommendation for debarment up to one year or

State/ UT	S. No	Name of the Project	Year of incid ent	Details of Major damages / defects	Action Taken
				severe rutting at some locations.	until successful rectification, whichever is later. Contractor has taken up repair/restoration works. The Project Director of NHAI was suspended.
Jharkhand	14	Four Laning of Mahulia-Baharagora-JH/WB Border Section of NH-33 (from Km.277+ 500 to Km.333+500) & NH-06 (from Km.199+200 to Km.183+587) (Length of 71.61Km) in the State of Jharkhand on EPC Pattern under NHDP Phase -III.	2024	Cracked PQC panels, Potholes	Rs. 1.55 Cr penalty imposed on Contractor.

State/ UT	S. No	Name of the Project	Year of incid ent	Details of Major damages / defects	Action Taken
Karnatak a	15	Two/Four Laning of BRT Tiger Reserve Boundary to Bengalore Section of NH- 948	2025	Km 337+670 to Km337+680 RE Block of lengths 10 mts collapsed	Concessionaire has taken up repair/ restoration works as per recommendation of report submitted by IISC Bangalore.
	16	Four laning of Goa-Karnataka Border to Kundapur section of NH- 66 (formerly NH- 17) from Km. 93.700 to Km. 283.300 in the State of Karnataka	2024	Incident of collapse of three spans of Kaali Bridge. Inadequate slope stability works.	Contractor debarred for 1 month on Aug 2024.
Kerala	17	NH Connectivity to ICTT at Vallarpdam from Kalamassery to Vallarpadam NH 966A	2025	Distress in pile foundation was observed at Bridge no. 07 & 08 Ch. 7+960 and Ch. 9+067 (BHS)	Penalty of Rs. 30.74 Cr was imposed on Contractor
	18	Kodugallur to Edappally NH 66	2025	Damages in the pile foundation Ch. 398+400 and 398+989 (RHS)	Concessionaire debarred for 1 year. Rectification works taken up at cost of

State/ UT	S. No	Name of the Project	Year of incid ent	Details of Major damages / defects	Action Taken
				Sub-standard work (Minor Bridge works, backfill material for RS Wall, Poor safety precautions, delayed grouting of girders, bulging of bearing) or poor quality (Defective RE Panels)	contractor.
	19	Chengala-Neeleshwaram Section of NH-66	2025	Soil nailing collapsed incident occurred at Ch. 58+035 to Ch. 58+100 (RHS) on 16.06.2025 with no casualties.	Authority has suspended the Concessionaire and its promoter from future bidding for 01-month period. Debarment also issued to Concessionaire. Senior Bridge Engineer of AE removed from site.
	20	Neeleshwaram-Thaliparambha Section of NH-66	2025	Unprotected soil slip in the cut section with debris	Rectification work carried out and traffic restored with

State/ UT	S. No	Name of the Project	Year of incid ent	Details of Major damages / defects	Action Taken
				deposition on carriageways.	precautionary barricading in median portion.
	21	NHAI - Six laning from start of Valanchery bypass to Kappirikkad section of NH - 66 (old NH-17) from Design Ch. 298+500 (Ex. km 304.250) to Design Chainage 335+850 (Ex. km 349.260) in the state of Kerala on Hybrid Annuity Mode under Bharatmala Pariyojana	2025	RE wall collapsed	Debarment of Contractor and Independent Engineering firm from participating in ongoing/future bidding for 01 month period or completion of investigation by the expert Committee whichever is later.
	22	Thuravoor- paravoor	2025	Collapse of 4 PSC Girders during constructions	Penalty of Rs. 15.35 Lakhs imposed. Bridge Engineer & Team Leader of AE were Terminated.
	23	Six Laning of Start of Kollam Bypass to	2025	Failure/Collapse of scaffolding of Minor Bridge	Penalty of Rs. 9.55 lakhs imposed on

State/ UT	S. No	Name of the Project	Year of incid ent	Details of Major damages / defects	Action Taken
